RECEIVED

OCT 15 1997

FCC MAIL ROOM

Subject: Amendment of Section 73.202(b).  
Table of Assignments,  
FM Broadcast Stations  
(Madison, Virginia)

I, Daryl A. Alligood, respectfully petitions the  
Commission to institute rule making for the assignment of FM  
Channel No. 296 (107.1) at Madison, Virginia.

Present  
None

Proposed  
296

1. The town of Madison is located in Madison County in northwestern Virginia. It presently has no local Audio Radio Service so this proposal would bring a first local radio service to this community/county. Population: Planning Board 1995, Madison County 12,252, Town of Madison 482.
2. The post office in Madison serves 2,375 customers (source U. S. Post Office). Madison is a thriving community which has had significant growth in recent years. The town has legal boundaries, its own Town Board, Post Office, Elementary, Middle, and High schools, local bank, grocery stores, restaurants, hardware store, service stations, clothing manufacturer, two auto dealerships, furniture manufacturing company, social and civic organizations and several churches. It is located at the intersection of U. S. highway 29 and 231 N. Madison is served by the Madison

No. of Copies rec'd  
List ABCDE

074

County School District with an enrollment of 1891 as of June, 1997.

3. Madison is comprised of the components which fully qualifies it as a community for Assignment proposed.

4. The attached "FM spacing Study" shows that Channel to Madison meets the technical requirements to assign this channel to Madison and would provide a 70DBU "City Grade" signal over the town.

5. If the FCC assigns this channel to Madison, Virginia, I will file an application for a Construction Permit for a Broadcast station on that channel.

Respectfully submitted,

*Daryl A. Alligood*
